

We recommend to order the sailcover 0.5m to 1m longer than the length of the luff tape (Keder).

## Technical Description

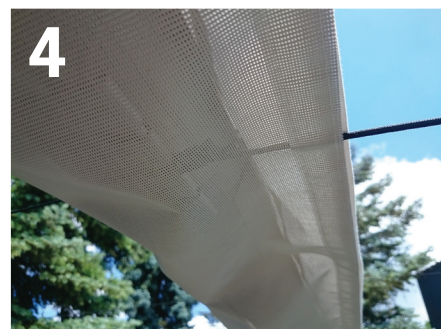

Width : 40cm

Length: like your order

Top material: Dickson Orchestra in light gray with yellow SunSquare Strip (waterproof)

Bottom material: SOLTIS86 in light gray (breathable)

Closure: Velcro and black shock cord straps

## Installation:

1. Close the sail - the sail should be dry.
2. Roll in the sail ends with the hand crank until only the ropes stick out.
3. Disconnect the system from the power or turn the power switch OFF (if available).
4. Attaching the sail cover - the Acrylic side up and the Soltis86 side down.
5. Attaching the black shock cord straps at a distance of appr. 1m.
